Experience the amazing!

Every Goldmedal device lives up to its tagline of being "amazing". In many cases, I have found them to go even beyond "amazing". How can I say that? Because I realized that every Goldmedal product has a certain style and finesse about it that makes you want to look at them more than once. Plus, they are an absolute joy to use - delivering more than what you expect. From the different types of switches and cover plates to the fans to their home automation products and LEDs - everything has an air of precision and balance that inspires amazement.

As an actor, I understand how a beautiful scene gets crafted for a film. There's the director's vision, there's a group of talented actors, there's passion and creativity on the sets, and there is the brilliance of the supporting cast and crew. I see a similar set of synergy manifesting through the entire product range of Goldmedal. To me, Goldmedal seems to be in this zone where they are always striving to deliver the amazing - irrespective of the type of product being made. It's an endeavor that fascinates me and makes me proud to be associated with them. As their brand ambassador, I'm delighted to be a part of their quest to create some of the most amazing products and experiences in this industry. I welcome you to be a part of this journey and experience the amazing along with me.

Saif Ali Khan

Creating brighter lives

For over four decades, Goldmedal has been creating world-class electrical devices and accessories to complement your homes and offices. We have made you smile with joy and satisfaction with products that have been developed and refined over the years. Goldmedal has been leading the electrical industry for years by introducing the best technology and products that understand your present and future needs.

Now, Goldmedal is proud to offer LED luminaires that are years ahead of their competition. Products that are innovatively designed and energy efficient, while still being aesthetically pleasing. We not only deliver quality lighting solutions that are both modern and efficient but also products that are extremely easy to use and maintain. Providing quality products, along with availability and service, to delight our customers has always been a priority. Creating new benchmarks for truly great lighting products, Goldmedal has come up with a new line of LED lights for the commercial and industrial sectors. Products that will illuminate your world like never before.

GEOLITE

LED PANEL LIGHT

SURFACE FRAME+LED PANEL LIGHT

Geolite is a slim, recessed LED panel that can be used as a concealed light or a surface light. It is available in round as well as square shapes. Manufactured with pressure die cast aluminium housing and anti-glare diffusers along with integrated energy efficient drivers, these LEDs can be used to create the perfect ambience in any indoor space. A separate frame is available to convert the LED for surface application.

PIXEL

ULTRA SLIM LED PANEL LIGHT

Pixel is an aesthetically designed, ultra slim LED panel light. Available in multiple sizes, it is made of pressure die cast aluminium housing and has an anti-glare diffuser and a separate energy efficient LED driver. Mountable on integrated as well as standard ceiling systems, these panel lights feature an advanced aluminium structure that allows for an extremely slim form factor.

SKY-GLOW

2X2 SLIM LED PANEL LIGHT

A compact, ultra light, high quality backlit LED panel with CRCA housing, anti-glare diffuser and a separate energy efficient driver, the Sky-Glow produces a large pool of high lumen light that is smooth and even in quality. Easy to install and constructed to last, the Sky-Glow is a solid fixture that can withstand the wear and tear associated with busy commercial areas. Although slim and compact, the G-Sky is robustly built. Available in 36 Watt variants, these panels create an ambience that is soft and delightful to experience.

Brighten
your surroundings.
Illuminate your life.

Goldmedal LED lights offer a wide range of illumination options that liven up your surroundings in myriad ways. In addition, they are easy to use, highly durable, and available in a variety of aesthetically appealing designs.

TODOS

LED PANEL LIGHT

This beautiful LED not only functions as a downlight but also emits light from its outer sides. You have a choice of three light combinations to choose from: you can opt to use the Todos as a simple LED downlight, or you could just use the blue, pink, warm white or RGB light on its side as a mood light, or you could use both the white downlight and the light on the side to create beautiful illumination all round. To make a choice, simply switch the light ON or OFF till you find the option that you need at that moment. Beautifully finished, its elegance and light weight adds to the overall convenience.

OLA DETACHABLE LED DOWNLIGHT

The Ola downlight with polycarbonate housing, anti-glare diffuser and integrated driver is the future of LEDs. This sleek light can be easily fitted or detached from its frame with a gentle push or twist! For the round LED, simply twist the light cartridge to fix or remove it from the housing and for the square LED, gently push it to achieve the same results. The OLA is extremely user-friendly, hassle-free and is the perfect choice for interiors with false ceilings.

DROPLET
LED DOWNLIGHT

TOTO
LED DOWNLIGHT

DUOS
LED DOWNLIGHT

The Duos is a uniquely-shaped LED that not only functions as a downlight but also emits light from its sides. You can choose to use it as a simple downlight or only the light along its side as a mood light – or you can use both lights to create beautiful illumination all round. The Droplet is a recess-type LED downlight made of polycarbonate housing and comprises an anti-glare diffuser that creates a soothing light. It also has an in-built driver and can be used in junction boxes at homes. In comparison, the TOTO is a low-depth, slim downlight that is available in warm white, cool daylight, as well as red, blue, green, and pink shades. It's the easiest way to create the right mood for your interiors.

FALCON

LED DOWNLIGHT

Falcon, the recess-mounted LED downlight, and Orchid, the COB spotlight are both ideal options for providing bright and even lighting in desired areas. Available in both White as well as Black housing, these LEDs ensure uniform lighting with their 105° beam angle and anti-glare diffusers. With pressured die-cast housing and a separate energy-efficient driver, the Falcon and Orchid perform seamlessly for a longer duration.

G-TWIST

SMART LED LIGHTING

The G-Twist is an example of a simple idea made extraordinary. A completely modular unit, the G-Twist enables you to detach the LED light unit from the base with a simple twist. Along with easier replacement of the LED light, the G-Twist also helps you avoid damage to ceilings during maintenance. You can choose multiple types of LED light options that match your interior needs - from colour to wattage to the style of the light unit. All this, with minimum fuss. It's a simple idea... yet so amazing!

G-TWIST

SMART LED LIGHTING

A gentle twist is all the G-Twist needs to latch on to the base module, ready to illuminate its surroundings with a light that is pleasant and cool. A twist in the opposite direction, and the LED light detaches itself from its base. Unbelievably simple and convenient to install, the G-Twist does not need any fasteners or other visible fixtures. These LEDs are thus not only elegant in appearance, they ensure no damage to your ceiling during maintenance.

G-TILT
COB DOWNLIGHT

FABIO
COB DOWNLIGHT

Create a world of difference by focusing your lights at different angles. Using the G-Tilt's swivel head, you can precisely direct the light at desired areas. The Fabio on the other hand helps you focus light with a great aesthetic appeal. The G-Tilt offers a wide beam angle in contrast to the Fabio which directs a more focused beam of light on the object. With die-cast aluminum bodies, both G-Tilt and Fabio are sleek and elegant in appearance.

KRYSTA

COB DOWNLIGHT

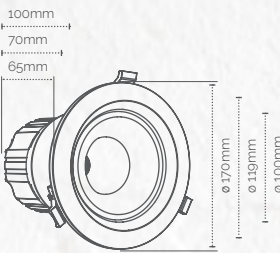

Dimensions

FRISBI

COB DOWNLIGHT

Dimensions

The Krysta is an innovative COB downlight with trimless design that merges effortlessly with the ceiling. It offers a narrow beam angle to create that perfect illumination. The die cast aluminium exterior and polycarbonate diffuser provides glare-free light with necessary heat dissipation. The Frisbi is another COB downlight that is a delight to use. The luminance of Frisbi is ideal for casting focused light on any desired spot. Both the Krysta and Frisbi add to the elegance of any setting.

G-SPIN LED SPOTLIGHT

Dimensions

The G-Spin is a sleek and elegant spotlight with swivel mechanism that allows for a wide angle tilt to focus the light beam. With a polycarbonate body, this lightweight spotlight can be used as accent lighting to highlight specific areas in any setting. Equipped with a matte, diffused lens, the G-Spin can easily project the light on any object or architectural detail as required. Available in round and square shapes and different watt variants, the G-Spin capably illuminates the darkest corners.

NEXON

COB DOWNLIGHT

Nexon is a compact, lightweight, minimalistic downlight. These COB LEDs have a robust design that feature an aluminium pressure die cast housing, special anti-glare diffuser as well as a separate constant current LED driver which ensures super bright illumination and energy efficient performance for a long time. The swivel mechanism in these COB light allows for a wide angle tilt that enables you to focus the light beam in the desired direction. Nexon can be used as accent lighting to highlight specific areas.

ORBIX

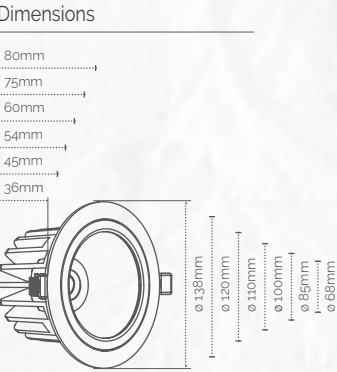

COB DOWNLIGHT

Orbix is the next-gen COB light equipped with an easy-to-use mechanism that allows you to effortlessly focus light on the desired spot. Its solid die cast aluminium exterior with high grade powder coating ensures durability with elegance while its polycarbonate, high translucent, clear diffuser provides glarefree light. The Orbix also has a specially designed heat sink to ensure proper heat dissipation.

G-BRIX

COB LINEAR LIGHT

A robust design with aluminium die cast housing, the G-Brix is a linear COB LED that can be used to provide high quality illumination. Consisting of single as well as multiple LED units, the G-Brix can be used to control the amount of illumination you need at a particular time. Depending on your lighting needs, you can switch on all or just a few of the units at a time. The G-Brix is fitted with a scientifically designed heat sink for good heat dissipation. The device comes with easy-to install clips for smoother installation. An all black exterior gives the G-Brix a distinct edge over other spotlights.

GROOVE

LED SURFACE LIGHT

Modular surface lights are versatile and help you customize lighting solutions as per your needs. Groove is a slim, rimless, and compact surface mounting light that can be easily installed with the push-to-fit technique, while Xylo just needs a twist to be fitted on your ceilings. The in-built LED driver of Groove ensures bright illumination. Xylo, on the other hand, comes with no fasteners, drivers, or other visible fixtures. Both Groove and Xylo radiate a sense of luxury, making them ideal for modern homes, hotels, shops, and offices.

Features:

- Modular surface light
- Easy to install detachable LED
- Polycarbonate housing
- High lumen output
- Can be fixed directly on wall/ceiling
- Inbuilt driver

FROZEN

LED SURFACE LIGHT

Inspired by the icy texture of nature, Frozen is a compact & trimless LED that exudes pure elegance in its simplicity. The Frozen LED panel can be mounted directly on the ceiling making it easy to install as well as maintain. Emitting a soft and pleasant illumination, Frozen is an energy and cost-effective LED that creates a wonderful aura of luxury and sophistication. Crafted with precision to match high-end interiors, the Frozen is a wonderful way to illuminate spaces in residential as well as commercial premises.

BIBO
LED SURFACE
SPOTLIGHT

Bibo surface light is characterized by its unique, bold geometric shape and an adjustable base that allows movement of the light in any direction. Packed with features like an aesthetically designed pressure die cast housing, inbuilt driver, anti-glare diffuser and surge protector, Bibo is an elegant yet sturdy lighting solution for modern homes. It also offers a high power factor of >0.9 and is thus extremely energy efficient. Upgrade your lighting system with the bright yet restrained illumination of Bibo.

Make your good times
Amazing!

There are some moments in our life that are special for us. The right lights make such moments even more memorable. Whether indoor or outdoors, Goldmedal LED lights bring alive the unique moments of your life like never before.

INSTA

LED FLOOD LIGHT

The Insta floodlights are exclusively designed with a high-performance electronic in-built driver and heat sink to provide a wide area of illumination. Thanks to the IP65 rating, the Insta floodlights can be used as security lighting, landscape lighting, or to highlight architectural features. The die-cast metal body and high surge protection make Insta highly efficient floodlights.

OPTIMUS
LED STREET LIGHT

TORUS
LED STREET LIGHT

The Optimus and Torus LED streetlights are a great way to illuminate your outdoor spaces and provide security. With clear, high-grade lenses, the Optimus and Torus are capable of delivering superior visibility on the darkest of nights. Both street lamps are made of die-cast aluminum with an energy-efficient LED driver to perform efficiently in all types of weather.

SPIDER SPIKE LIGHT

Brighten your outdoor areas like gardens, patios, swimming pool areas, balconies or yards with the sturdy and reliable Spider garden LEDs. These LEDs have IP 65 rating, making them dust and water resistant and thus perfect for all-weather use. Available in multiple wattages, the Spider spike light can be used for multiple purposes. Apart from illuminating outdoor spaces, they can also be used to highlight architectural details, sculptures, flower beds, driveways, etc.

Let the *light* lead the way.

No matter what time of the day or night it is, you can liven up your surroundings with superior LED lights. While LED battens are standard fixtures in most homes, opt for Goldmedal products for their higher power saving, uniform light distribution, modern yet lightweight design, and sturdy, durable frames.

LEDs
Lighting

These sleek LED Battens are the ideal replacements for existing fluorescent T5 fittings. Using a fraction of the power consumed by fluorescent tube lights, these LED lights can last up to three times longer. Their slim form and impact-resistant housing leads to enhanced aesthetics and durability. Switch to LED Battens to reduce energy consumption and thereby minimize the impact of fossil fuels on the planet!

Innovation.

At the core of our DNA.

Goldmedal aims to make everything better and brighter. The LED bulbs from Goldmedal are a great choice for anyone looking to reduce their energy consumption and saving money on their electricity bills. But that's just one part of the story. By providing a wide range of LEDS in varied sizes, shapes, and colors, Goldmedal ensures that you will always find the right product for any application. Whether it is style, performance, or efficiency, the innovation never stops.

*See life,
in a new
light.*

If you're looking to upgrade your light bulbs, make sure your choice is Bloom LED bulbs. These cool-looking bulbs are not only wonderful to look at, they are winners in every other department. The Bloom LEDs emit equal light as your fluorescent bulbs while lasting longer and using lesser energy. What's more, they fit into the same sockets. Bloom LEDs not only lower energy consumption by up to 90%, they are also mercury-free and thus environment-friendly.

INVERTO
LED LAMP

THOR
LED LAMP

WOW
LED LAMP

The Inverto LED is a rechargeable LED lamp that is powered by a 2200 mAh battery and offers up to 4 hours of battery backup. It is the perfect replacement for average LED bulbs. The Thor bulb is an environment-friendly, retrofit solution for high power CFL lamps. Compatible with B22 base, it is an ideal solution for warehouses, stores, retail shops, etc. Finally, the Wow LED lamp is an instant start, mercury-free bulb that has a high efficacy of 105 lumens/watt and 3 star BEE rating. Compatible with a B22 lamp base, it is an all purpose bulb that can find application in any setting.

Environment-friendly *lights.*
Make it a part of your *lifestyle.*

The future is brighter when we switch to LED lights. They not only offer high power savings of more than 50%, they also use environment-friendly materials and ensure lower heat dissipation. LEDs are thus the de facto choice for lighting solutions. Switch to Goldmedal LEDs and make them a part of your daily living.
